

# INTERNATIONAL SEARCH REPORT

Int'l Application No  
PC I/GB2005/001070

A. CLASSIFICATION OF SUBJECT MATTER  
IPC 7 E01C11/22 E01F9/053

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 E01C E01F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	GB 942 255 A (PHILIP KING; RICHARD MOFFATT) 20 November 1963 (1963-11-20)	1-12, 14, 19-32, 34-36, 42, 43, 48-52, 57, 69, 72, 74, 75, 84-86
Y	page 1, line 10 - page 3, line 7 figure 7	13, 33, 50, 86, 87
Y	DE 20 35 028 A1 (SCHLEITH) 20 January 1972 (1972-01-20) figures 1-6	13, 33
	-/--	

☒ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

### \* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \* & \* document member of the same patent family

Date of the actual completion of the international search

8 August 2005

Date of mailing of the international search report

30. 08. 2005

Name and mailing address of the ISA

European Patent Office, P.B. 5818 Patentlaan 2

## INTERNATIONAL SEARCH REPORT

ational application No.  
PCT/GB2005/001070

### Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:  
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. ☐ Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

### Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☒ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:  
  
1-14, 19-36, 42, 43, 48-53, 70-77, 84-87
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-14,19-36,42,43,48-53,70-72,77,84-87

kerbstone comprising a body having a retention formation for assisting the retention of the kerbstone.

1.1. claim: 13 and 33

kerbstone comprising a body having a hollow cavity divided into compartements by ribs which are scalloped proximate the base.

1.2. claims: 50,86 and 87

kerbstone having retention elements extending from proximate the base to a position short of the top face.

1.3. claims: 20,52 and 53

kerbstone with apertures in the front and or rear walls of its body to allow concrete to be poured there through.

1.4. claim: 77

kerbstone with a body made of plastic or rubber material formed with a blowing agent.

1.5. claim: 70 and 71

kerbstone with a drainage channel.

2. claims: 15,17,18,37,44-47

kerbstone having portions of different strength or different materials.

3. claims: 55-69,88

kerbstone with means for informing a road user.

4. claims: 73-76

kerbstone comprising a body having a hollow cavity divided into compartements by ribs which are formed in a special bearing form.

5. claims: 78,79

kerbstone in which a surface is rendered wettable.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

6. claim: 80

kerbstone having a cavity filled with expansion foam.

7. claim: 81

kerbstone with an outer skin of plastic material.

8. claims: 54, 82 and 83

kerbstone with a surface having a higher friction characteristic.

9. claims: 89-109

kerb race reinforcement structure or system or method including a kerb race reinforcement structure.

10. claims: 16, 38-41, 110-113

kerbstone or method for forming of a kerb race for a kerbstone, with at least a spigot receiving structure.
